

Special Interest Group

suitable for children aged 8-10 years

SPLASH
GROUP
PROGRAMS

Our special interest groups provide a supportive space for children to learn, discuss, and trial strategies that may assist them with developing and maintaining friendships.

Special interest groups may be centred around a theme or area of interest and include a range of activities (e.g. board games, sports, construction, craft) where children are provided the opportunity to work collaboratively with their peers.

In these groups, children are supported to develop their communication skills for use in a range of social circumstances (e.g. establishing friendships, conflict resolution, expressing and hearing opinions, self-advocacy etc). Please contact Splash if you would like to find out more about our special interest groups or register interest for your child.

Session format:

In-term groups: 10 x 1hr weekly sessions over 10 weeks

Holiday groups: 5 x 1.5hr daily sessions over 1 week
